

# MULTIMAX™

## Multi-Purpose Paint

Water Based  
Acrylic  
Linseed Oil  
Modified  
Hybrid

**MULTIMAX's linseed oil & acrylic polymer system provides a durable & versatile all-in-one paint!**

- Finish Coat, Undercoat & Primer
- Suitable for new & previously painted surfaces, wood & concrete, galvanised steel, most common surfaces
- A water based, low sheen, acrylic & linseed oil, multi-purpose paint with excellent UV absorption and a tough & durable surface once hardened
- High water resistance and better tolerance to imperfect surfaces compared to conventional acrylics due to the special wicking/bonding ability of linseed oil
- For Colorsteel® type products we recommend a priming coat of ROOFMAX PRIMER for smooth baked surfaces, before the application of MULTIMAX. Refer to ROOFMAX PRIMER "Preparation" instructions
- Available in Test Pots, 2 litres, 4 litres & 10 litres
