

# ROOFMAX™

**Roof Paint**    *Water Based  
Acrylic Linseed Oil  
Modified*

***ROOFMAX's linseed oil & anti-corrosive system provides superior protection!***

- All-in-one primer, undercoat & finish coat
- Suitable for roofs & spouting, galvanised steel & other metal surfaces, new & previously painted surfaces, concrete roof tiles
- Water based, low sheen finish with high opacity giving excellent UV absorption & high durability
- Modern day anti-corrosive & fungicidal protection technology
- Also suitable for Coloursteel® type products - these may require priming with Roofmax Primer due to the very smooth, baked surfaces where elevated adhesion is required
- Available in Test Pots & 10 litres, Roofmax Primer also available in 4 litres

# ROOFMAX™

## Roof Paint

ROOFMAX has exceptional tolerance to imperfect surfaces compared to conventional acrylics (especially flaking surfaces) due to the special wicking/bonding ability of linseed oil.

Exterior

Antifungal agents

Brush

Roller

Airless Spray

10 sqm/litre per coat

Coverage

Touch dry ~30 min

Recoat overnight

Water clean up
